

MANAGEMENT FOR CLINICIANS

About RACMA

The Royal Australasian College of Medical Administrators (RACMA) was founded in 1968 in recognition of the emergence of medical administration as a specialty in its own right. It was established with the aim of promoting and advancing the study of health services management by medical practitioners.

Recognised by the Australian and New Zealand Medical Councils, it delivers programs to medical managers and other medical practitioners who are training for or occupying Specialist Leadership or Administration positions.

RACMA is unique in the world as the only specialist medical college that trains doctors to become specialist medical leaders and managers. Our education programs, including our accredited flagship Fellowship Training Program, are aimed at equipping doctors with the leadership and management skills needed to influence and lead the Australasian health care systems with the clear aim of improving health outcomes of Australians and New Zealanders.

The strength of RACMA is its Members, who strive to lead for change and positive outcomes for all Australians, New Zealanders, and peoples in all parts of the world in which their Members practice; demonstrating their skills in key areas such as system leadership, clinical governance, financial management,

workforce management, and professional leadership. RACMA Members fill key roles in all aspects of health, including government and the public and private sectors. Their roles are diverse, including:

- Chief Executives of hospitals and universities
- Chief Medical Officers
- Chief health officers of government jurisdictions
- Director of Medical Services
- Heads of government departments and health authorities
- Consultants to governments and private sector health services
- Public policy and health program management in information technology and pharmaceuticals

If you are a doctor with medical registration in Australia or New Zealand, you may want to consider your options for membership with the only recognised specialist college of Medical Administration globally.

For all enquiries please contact the RACMA office in Melbourne +61 3 9824 4699 or email mfc@racma.edu.au.

LEADERSHIP EDUCATION BY DOCTORS, FOR

DOCTORS, WHO WANT TO INFLUENCE THE

HEALTH OF MANY.

Management for Clinicians Program

The Management for Clinicians Program is designed for clinicians who are planning to work in leadership and management roles. The workshops are facilitated by experts including experienced Fellows and Associate Fellows of the Royal Australasian College of Medical Administrators.

The theoretical foundation is complemented by Fellows sharing their experience in responding to the challenges of working in a complex and adaptive healthcare system.

The program covers four topics:

1. Understanding Clinical Governance
2. Health System Finance Foundations
3. Communication for Leading Teams
4. Clinician to Clinician Manager

The benefits of the program include:

- Developing foundation management and leadership skills
- Understanding the factors necessary for continuous quality improvement in patient safety
- Developing your knowledge of health care systems operations
- Understanding how to manage and lead teams
- An opportunity to network with senior medical administration specialists

The Management for Clinicians is delivered as four online sessions. More information can be found on the RACMA website.

Customised programs can be developed to suit your organisation. Please contact mfc@racma.edu.au or phone +61 3 9824 4699 for further information.
